

St Joseph's School, is an educational community which provides a caring environment where the dignity of each person is nurtured through knowledge and understanding of self, respect of cultural heritages and the love of God.

**St. Joseph's Catholic Primary School
Semester One Report
Year 2**

Student: IMOGEN SMITH

Teacher: Mr Mike Jones & Mrs Karen Martin

National Reporting Regulations

The Australian Government has decreed that schools are to provide specific information in formal reports to parents using the following:

- 1) The student's results in NAPLAN tests against National Literacy and Numeracy benchmarks in Years 3 and 5 with the Semester Two report.
- 2) Students' achievement of the learning outcomes:
 - Graded on an A-E grade system.
 - Referenced to challenging achievement targets for each year and Learning Area.
 - Averaged to provide an overall achievement grade for the Learning Area.

The Semester Report

When determining a grade at the end of the semester, teachers will take into account the progress a student has made in regard to:

- What a student can already do (the characteristics associated with the student's achievement).
- What a student needs to be able to do by the end of the current school year (the characteristics associated with the current end of year grades).

Rating Students' Progress in Relation to the Achievement Grades

For each outcome covered, students' achievement will be graded in relation to their progress towards the achievement grade. The rating definitions are:

A Well Above Target

The student demonstrates achievement that has greatly exceeded the expected target.

B Above Target

The student demonstrates achievement that exceeds the expected target.

C At Target

The student demonstrates achievement at the expected target.

D Below Target

The student demonstrates achievement below the expected target.

E Well Below Target

The student demonstrates achievement well below the minimum expected target.

It is important to note that the Formal Student Report is complemented by a number of other reporting tools.

For example:

- Learning Journeys
- Developmental Portfolio
- Parent-Teacher Meetings

These complementary reports provide information about students' progress for both conceptual and process outcomes.

Additional Support and Alternative Reporting

During the semester, some students may receive additional support from Specialist Support Staff for Literacy, Numeracy, ESL and/or Special Education.

In these instances, students may have an Individualized Education Plan (IEP) in place. These students will receive a report which will accurately report their progress in relation to their adjusted curriculum plan.

Personal and Social Development

Interpersonal - Social Skills	Rarely	Occasionally	Frequently	Consistently
Accepts responsibility for personal behaviour				✓
Respects the rights of others				✓
Plays cooperatively with other children				✓
Works cooperatively with other children				✓
Displays leadership skills				✓
Deals with and solves daily problems appropriately				✓

Personal - Learning Processes	Rarely	Occasionally	Frequently	Consistently
Shows pride in work			✓	
Accepts responsibility for own learning			✓	
Works towards achieving personal goals				✓
Reflects on own learning				✓
Perseveres with task/problem solving				✓
Accepts challenges				✓
Participates in group activities			✓	
Communicates effectively			✓	
Shows initiative			✓	

General Comment

Imogen is a polite, diligent young girl who has been an absolute pleasure to teach throughout this semester. She quietly and diligently completes her work with minimal supervision and is to be commended for this. She is highly motivated and strives to achieve the best results she can. Imogen has completed an outstanding semester's work. She is encouraged to engage more in whole class activities and contribute to classroom discussions. Imogen is developing excellent reading skills, both in her understanding of the text, and oral reading ability. Although Imogen is extremely confident in responding to questions at the literal level, she still needs to be more willing to develop her ideas at the inferential level. She is encouraged to add expression to the spoken word when reading orally. Imogen is writing detailed stories and is accurately using the conventions of the Australian Language.

Keep up the great effort, Imogen! All the best for the remainder of the year.
